Professional Summary

Although I graduated with a Bachelor's degree in Primary School Teacher Education, my passion for technology led me to pursue a career in web development. I am a highly motivated, innovative, and task-driven professional with over 4+ years of experience in frontend development. I specialize in fulfilling client requirements, troubleshooting complex issues, and collaborating effectively in team environments — as demonstrated by both my work and project experience.

Professional Experience

Radya Digital | Bandung

Frontend Web Developer (January 2021 – Mei 2025)

- Designed and created 7+ responsive web applications, increasing user engagement by up to 30% through improved UI/UX and device compatibility
- Collaborated with cross-functional teams (5–10 members) to deliver 15+ projects on time, achieving 95% stakeholder satisfaction and aligning features with business objectives
- Boosted frontend app performance by 40% by optimizing rendering logic, reducing load times from 3.5s to 2s, and resolving 100+ critical bugs based on real-time user feedback
- Maintained 95%+ unit test coverage and enforced Git workflows, contributing to a 50% drop in production bugs and smoother deployment cycles
- Integrated modern frameworks like React 18, Next.js 14, Angular 15+, and Vue 3, increasing development speed by 20% and reducing maintenance issues across 5+ high-traffic apps

Web Developer (2020 – 2021)
Swarga Beranda | Bandung

- Built 2+ responsive websites using mobile-first design, leading to a 25% rise in mobile traffic and improved UX Mobile Devices
- Revamped product display modules using modern design systems (e.g., Material UI), increasing average session time by 18% and boosting user conversions by **12%**
- Managed and updated website content weekly, ensuring 100% content accuracy and contributing to a **15%** SEO improvement within 3 months

Project Experience

- **Asia Money Finance News and Forums (2024 - 2025)**
  Launched an interactive finance platform and forum, contributing to a **25%** increase in returning visitors by delivering a clean UI and discussion-driven layout

- **APL Customer Portal (2021 & 2025)**
  Developed a B2B healthcare and pharmaceutical e-commerce portal, reduced ordering errors by **30%** with UI refactors and improved product categorization

- **Asesmen Nasional Berbasis Komputer (ANBK) (2023 - 2024)**
  Architected frontend modules for a national education assessment tool used by **1M+** students, enabling stable concurrent access with efficient component rendering

- **Biofarma Audity Management System (2024)**
  Delivered an internal audit management interface that streamlined audit workflows, reducing manual tracking time by **40%**

- **Sales Workforce Automatic (2023 – 2024)**
  Built real-time dashboards and tracking components that helped sales teams monitor leads and activities, leading to a **15% boost in productivity**

- **Waste Management App (2023)**
  Create a location-based scheduling app for waste collection teams, decreasing missed pickups by **35%** and improving route efficiency

- **DBS Bank Maintenance Retainer (2021 & 2023)**
  Enhanced banking platform stability and security, cutting frontend issues by **50%** across two release cycles

- **Vitclaim System Maintenance (2023 & 2025)**
  Modernized a healthcare claim management interface, cutting report generation time by **25%** and resolving legacy UI bugs

- **Binus Curriculum Management System (2022 - 2023)**
  Built academic planning tools for faculty and staff, reducing manual curriculum entry errors by **60%** and enhancing inter-department collaboration

- **Swarga Beranda (2020)**
  Deployed a digital showcase for MSME products and residential properties, increasing lead submissions by **20%** within the first 2 months
